HAKKAISAN YUKIMURO

**Served at World Golf Tournament  
Champion's dinner**

**by Hideki Matsuyama**

Matured in for 3 years in naturally low temperature without using carbon energy.

## Hakkaisan Junmai Daiginjo Snow Aged 3 Years

The low-temperature food storage "Yukimuro", which has been handed down from ancient times in Uonuma, where the amount of snowfall is abundant, was used for sake brewing and aged in a warehouse containing a large amount of snow.

The low temperature of around 3 degrees is kept stable by snow.  
The sake has become mellow over three years in this environment.

Hakkaisan Yukimuro  
that stores 1000 tons of snow
