HAKKAISAN YUKIMURO

**Served at World Golf Tournament
Champion's dinner**

by Hideki Matsuyama

Matured in for 3 years in naturally low temperature without using carbon energy.

Hakkaisan Junmai Daiginjo Snow Aged 3 Years

The low-temperature food storage "Yukimuro", which has been handed down from ancient times in Uonuma, where the amount of snowfall is abundant, was used for sake brewing and aged in a warehouse containing a large amount of snow.

The low temperature of around 3 degrees is kept stable by snow.
The sake has become mellow over three years in this environment.
